- Source: each hospital's own machine-readable price file, published under 45 CFR Part 180. The file link and date for every hospital are on its page in this report.
- Commercial plans only. Medicare Advantage, Medicaid managed care and exchange plans are classified from the published plan names and excluded.
- Where a hospital lists several commercial plans for Blue Cross Blue Shield of Texas (for example PPO and HMO), its rate is the middle one (the lower of the two middle ones when the count is even), so every rate is a line in the file. Plans named as Medicare, Medicaid or exchange products are left out. Rates for one product can differ; product-level rates are available on request.
- Fee-schedule dollar rates for facility charges only. Professional fees, case rates, per diems and percent-of-charges rates are excluded, as are placeholder and implausible values.
- Area median: hospitals in one system usually share a contract, so each distinct rate counts once. A service is included only where at least 5 hospitals in the area publish a rate for it.
- "Other insurers here" is the median of the other commercial insurers' rates for the same service at the same hospital, where at least one other insurer publishes one.

Rates are as published in each hospital's file for this insurer's commercial plans. Your plan's specific network, product or contract may differ. This report is built from public data for information only. It is not legal, financial or contracting advice.
